

Getting the most from your choice fund health savings account

Cigna HealthcareSM wants to help you save time and money, and maximize your health care dollars, whether you use your health savings account (HSA) to pay for medical expenses today or in the future.

Creating a strategy

It's important to identify your goals for the HSA when you enroll. Here are some key questions to help you create your personal strategy.

1. How much do you plan to spend this year on health care?
 - Monthly prescriptions or planned visits to the health care provider's office?
 - Planned procedures or events?
 - Setting aside funds for unexpected health care expenses?
2. Is your employer contributing to your HSA?
3. How much can you afford to contribute every month?
4. How much would you like to invest and save for next year?
5. How much of a tax deduction would you like to target?

Making contributions

How much you decide to contribute will depend on your spending needs and your goals related to tax savings. In addition, you should consider contributions made by your employer, if applicable.

To contribute to your Choice Fund[®] HSA, you can set up electronic fund transfers or send a check directly to your account using deposit slips available in your welcome kit. You may also be able to make contributions through payroll deductions.

QUICK TIP: Use our [HSA Savings Calculator](#) to help determine your annual contribution maximum and tax savings, and to see the potential future value of your account based on contributions made today.

Most popular contribution strategies

Strategy	Description	Advantages
Maximize HSA savings	Maximize the potential growth of your funds by making HSA deposits as early in the year as possible.	Money in the HSA is FDIC insured and earns interest tax free.* When balances qualify, you may participate in various investment options.**
Expense deferral	<ul style="list-style-type: none"> Fully fund the account, but pay current medical expenses from a non-HSA account. Reimburse yourself, tax free, at any time in the future for medical expenses incurred over the ensuing years. 	Maximize tax deductions and tax-deferred growth for the future.
End-of-tax-year tax advantage	You may still contribute to your HSA for the current tax year until April 15 of next year.	Families at a 30% tax rate would save over \$2,400 per year in income taxes if they contributed the maximum allowed.***
Maximizing disposable income	If you want to preserve your current cash flow, start with a small HSA contribution and then add funds when you incur a medical expense. You can immediately reimburse yourself to get the tax savings.	<ul style="list-style-type: none"> HSAs can be funded “after the fact.” Good solution for those on tight budgets. Makes HSA funds available to pay medical expenses before deductible is met.
Slow and steady	Fund the account monthly/bimonthly with recurring transfers from your checking account or payroll deductions (contact your employer for details).	<ul style="list-style-type: none"> Create a steady stream of contributions. Payroll contributions are usually deposited pretax.*

QUICK TIP: You can initiate online fund transfers from your checking account to your HSA as a one-time or recurring contribution on **myCigna.com**®.

Maximize your health care dollars

At the doctor	Tip	Also remember
In-network vs. out-of-network health care professionals	Generally, visiting a health care professional who participates in your plan's Cigna Healthcare network will be less expensive than out-of-network treatments.	In-network doctors typically don't require payment up front for services. You should wait for an explanation of benefits (EOB) that includes the discounted payment amount and your specific amount owed, before paying the health care professional.
Shop for lower-cost options	We make cost and quality information part of every health care professional and hospital search in our health care professional directory on myCigna.com .	Review all treatment options with your doctor before you receive care. Less invasive and less costly treatments may be available.
Know your costs up front	When you're faced with a costly medical procedure, know your costs up front. Our online cost estimator tools are personalized to reflect your true out-of-pocket costs – using health care professional and plan discounts, real-time deductible status and available funds.	Most plans cover in-network preventive care (such as a yearly physical) at 100%. (Not all preventive care services may be covered, such as immunizations for travel, so check your plan documents for details.) You can also use your HSA for non-reimbursable dental and vision expenses.

*HSA contributions and earnings are not subject to federal taxes and not subject to state taxes in most states. A few states do not allow pretax treatment of contributions or earnings.

**Once specific balance thresholds are met. Investment accounts are not FDIC insured and they are not bank guaranteed. Investments are subject to market fluctuation, investment risk and possible loss of principal.

***The family maximum for HSA contributions is \$7,750 for 2022, and \$8,300 for 2024.

All of these strategies should be carefully considered in light of your cash flow, and tax and investment options. Cigna Healthcare always recommends you discuss these strategies with a professional financial planner and tax advisor.

The HSA provider and/or trustee/custodian is responsible for all HSA services, transactions and related activities. Cigna Healthcare and your employer are not responsible for any aspects of the HSA services, administration or operation.

All Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group, including Cigna Health and Life Insurance Company and Connecticut General Life Insurance Company.
